THE CHOICE ARCHITECTURE

EMPLOYEE CAPITAL PLANS (PPK)

“Undertaking saving for retirement should be easy, automatic at best.

Automatic enrolment into a pension scheme should be the default option for employees, whilst opting out ought to require an employee to conduct action.”

PFR is responsible for managing the PPK Register – the register system for participants and financial institutions authorized to offer PPK.

PFR TFI (as the designated financial institution) will guarantee employers and employees access to PPK, as it cannot decline to establish a PPK for any employer.

The PPK Act states that PFR Portal PPK is statutorily appointed to operate the PPK Portal. The Portal will present the key assumptions of PPK, both from the employer's and employee's perspective.

MAIN ASSUMPTIONS

WHAT IS PPK?

EMPLOYEE CAPITAL PLANS (PPK)

PPK is a new private, common and voluntary system of long-term savings designated for **12,3 mln employees**, based on the co-operation between employers, employees and the state.

The system is an opportunity to improve the standards of the Polish labour market. It will also increase **the financial security of Polish citizens after retirement and strengthen the capital market.**

PPK has been established for the employee to regularly gather savings with the aim to withdraw them after reaching the age of 60

PPK'S MAIN AIMS

EMPLOYEE CAPITAL PLANS (PPK)

- Increasing employee's financial security
- Improving the quality of life of Polish citizens after retirement
- Improving the structure of savings accumulated by households
- Raising the level of national savings and reducing foreign debt of the economy
- Enhancing the economy's long-term development potential

Pracownicze
Plany
Kapitałowe

The PPK Act defines the aspects of:

- accumulating funds within PPK
- concluding the agreements for managing and operating PPK
- financing and carrying out payments towards PPK
- performing withdrawals, transfer withdrawals and the return of savings within PPK
